

Make us pay! EV owners say they want free fast charging offers scrapped

The West Australian EV charging network idle fees will commence on July 18th, 10 minute grace, \$1 per minute, still applies if it's the only car charging, and most importantly plenty of signage. Only those completely oblivious to the world around them will incur idle fees.

10:30 PM · Jul 12, 2023

T E S L A

The Tesla app allows owners to remotely monitor their vehicle, alerting them when their charge is nearly complete and again once fully charged. For every additional minute a vehicle remains connected to the Supercharger, it will incur an idle fee. If the vehicle is moved within five minutes, the fee is waived. Idle fees only apply when a Supercharger station is at 50% capacity or more. Idle fees double when the station is at 100% capacity. To be clear, this is purely about increasing customer happiness and we hope to never make any money from it.

Idle Fees by Country and Region

Country/Region	Currency	Idle fee (per minute)	Idle fee (per minute) when the station is 100% occupied
Australia	AUD	\$0.50	\$1.00

Glebe Hill Village

6 July at 09:57 · 🌐

🚗🔌 Heads up, electric car owners! We're thinking of supercharging your experience by upgrading our 22kw EV chargers to zippy 50kw fast chargers from Evie. Imagine getting a full charge in just 40 minutes instead of 2-3 hours! 🚀 We'd love to hear your thoughts or concerns on this.

P.S. This means our trusty Schneider EVlink Floor Standing 22KW 2xT2 with Shutter RFID EV Charging Station will be up for grabs! 🙌 We initially invested \$34K in it, and it's been fantastic. Any takers at a reasonable price, or suggestions on where we could find it a new home? It deserves to keep energizing the EV community. ❤️

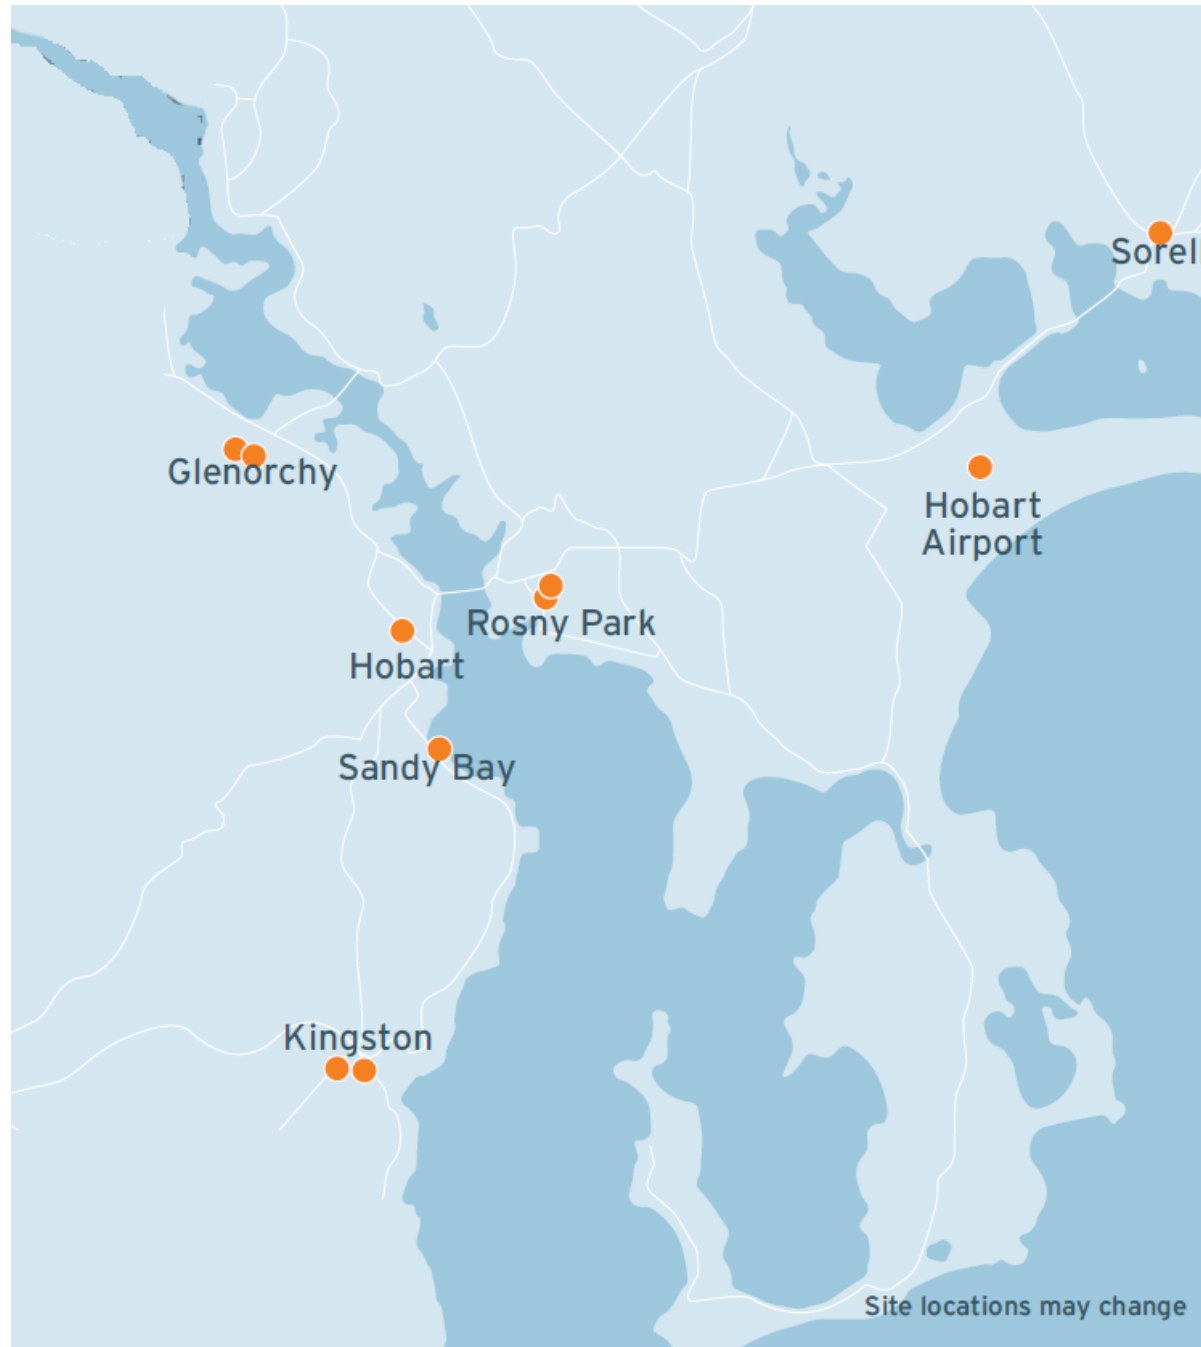

Spring Farm Village

1h · 🌐

🌱 Discover eco-conscious design at Spring Farm Village! From the creators of Glebe Hill Village comes a game-changing shopping centre redefining retail in the South.

☀️ Full Solar Array: Clean, renewable power 😊
Harnessing the sun, Spring Farm Village generates clean energy, significantly reducing its carbon footprint.

⚡ EV Charging Stations: Embrace electric mobility ⚡
Say goodbye to range anxiety with our EV charging stations, promoting eco-friendly transportation.
